Bulldog PRIDE!

I got it! I got it!!

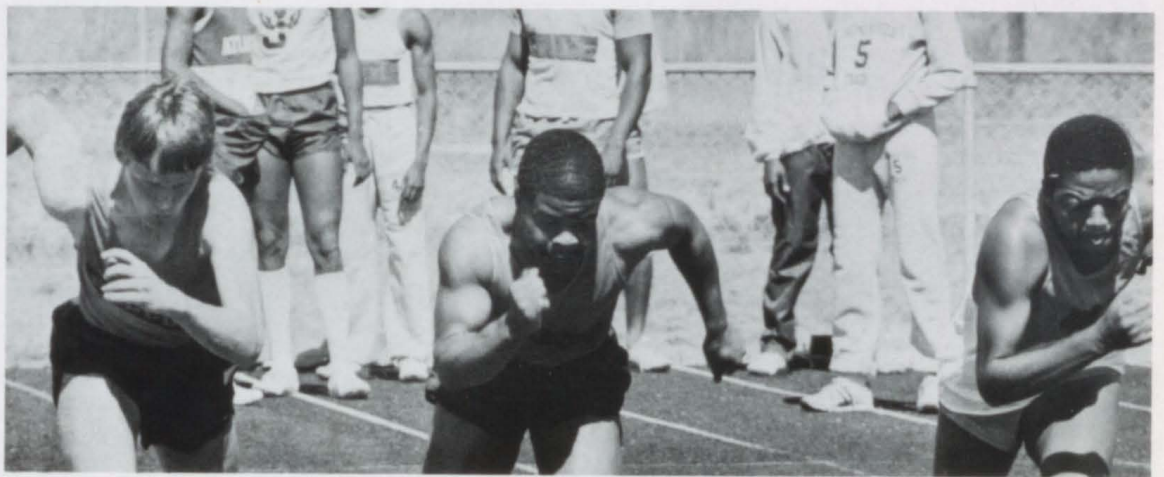

No pain, no gain.

Ugghh!

Earnest goes up for two.

Get it Dee!!

And it all leads back to one man.

Shazam!!

Stan concentrates on the game.

Come on Roy, I saw him first.

The victory exchange!

The "Spirit Builders."

Hit 'em hard!

Look at Kathy go!

Go, Fight, Win!!!

Pass it on, Kathy.

Senior football players say 'Dog's are #1.

The Queen City Bulldog athletic teams have had one of the most successful years ever. Wins in most sports have been limited since the 'Dogs moved to 3-A several years ago. But 1985-86 was a different story. And much of the success enjoyed by the various teams can be attributed to a dedicated group of senior athletes who led the way from the fall sports of football and volleyball through the winter basketball season and into the spring sports of baseball and track.

Shirley Haynes, Addie Lawrence, and Paulette Johnson are senior volleyball players.

Senior basketball players are Jackie Oliver, Leonard Dowden, Paulette Johnson, Dewaski Davis, and Veronica Blaylock.

New Science Lab 'Great' For High School

By GEORGE BRIDGES
'I think it's great,' says teacher Denise Hendrick...

Nickerson said the last two changes were not difficult because the teachers did not have any equipment that needed to be moved.

When looking like the existing lab with the exception of the number of students it can seat...

The teacher said she will order more new equipment for the lab in the future...

He said the lab will be completed by Oct. 1. He said the lab tables need to be installed and since they are in place...

The main expense for the lab was for the lab tables...

When Hendrick moved into room 181, it meant that L.H. instructor Loretta Lottin had to move from her old room 182 across the hall to room 181.

Knocking down walls for doors and putting up partitions are not the only things Queen City workers have been doing this summer to get the new lab installed.

Or the work they had to do, Lambert said churning the floor was the toughest task...

After they are installed, Lambert said the floor would have to be covered around where the pipes are being put in.

The main expense for the lab was for the lab tables...

When she arrived, Hosa was impressed by the landscape of northern Texas...

Discipline Plan

amount of tardies the districts received last year. Another factor in the plan was the amount of time each student took to go to the office each week...

Some teachers agreed on the same thing about the plan, 'classes have fewer interruptions, it's good that everyone has the same plan.'

The plan sets rules for all teachers to follow and they do not have to set up rules for each class.

After two warnings against talking, chewing and other classroom disruptions a student will be sent to after-school detention.

Students who disrupt class by fighting, making threats or disturbing the class will not go through the warning system...

If a student has an extracurricular activity he is not excused from detention hall and must miss practice...

'Involvement after school teaches the kids responsibility,' Donna Hurt, social studies teacher, said. This could be especially bad for those who...

Ag Department To Begin Selling Student Parking Permits

Parking stickers will go on sale Monday by the vocational ag department...

Students must get a sticker and a designated parking space to be able to bring a car onto campus during the school year.

Permits will be the only ones to buy permits on Monday and Tuesday while juniors can begin buying on Tuesday and Wednesday.

The selling of tickets will be conducted by the ag department...

Hosa said she would do the same thing when she is in the situation again...
